

Discovered checks: Black, move 23

Discovered checks

Black to move

Previous move: 23.hxg6. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

23...Rxe4+ 24. f4 Qxf4+ 25. Kb1 Rxc4

23...Rxe4+ Check restricts White to 3 legal replies here. The changed line means the queen on g5 attacks the king on c1. Recorded reply: **24.f4**.

24...Qxf4+ Check restricts White to 2 legal replies here. The move also takes the pawn on f4. Recorded reply: **25.Kb1**.

25...Rxc4 The rook captures the queen on c4.

At the end, nominal material is White 17 / Black 30 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +13. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +13**: the balance goes from +0 to +13. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

The checking line must actually be clear, and moving the blocker must not expose your own king to check.

WHAT THIS POSITION TEACHES

A discovered check opens a line toward the king by moving the blocking piece. Because check must be answered, the moving piece may gain a free tempo for another threat.

HOW TO LOOK

Trace the hidden checking line first. Then examine where the blocker can move to attack or capture something important.

The defending king is on c1. Geometrically undefended: queen on c4 and bishop on g2. Check for tactical protection.
