

Discovered checks: White, move 24

Discovered checks

White to move

Previous move: 23...Qb6+. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

24. c5+ Kh8 25. cxb6

24.c5+ Check restricts Black to 5 legal replies here. The changed line means the queen on a2 attacks the king on g8. Recorded reply: **24...Kh8**.

25.cxb6 The pawn captures the queen on b6.

At the end, nominal material is White 26 / Black 18 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +9. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +9: the balance goes from -1 to +8. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

The checking line must actually be clear, and moving the blocker must not expose your own king to check.

WHAT THIS POSITION TEACHES

A discovered check opens a line toward the king by moving the blocking piece. Because check must be answered, the moving piece may gain a free tempo for another threat.

HOW TO LOOK

Trace the hidden checking line first. Then examine where the blocker can move to attack or capture something important.

The defending king is on g8. Geometrically undefended: rook on a8 and bishop on e7. Check for tactical protection.
