

Discovered checks: Black, move 47

Discovered checks

Black to move

Previous move: 47.fxe4. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

47...fxe4+ 48. Kh2 exd3 49. g6+ Kh8 50. gxf7 Qxf7

47...fxe4+ Check restricts White to 4 legal replies here. The changed line means the queen on d7 attacks the king on h3. Recorded reply: **48.Kh2**.

48...exd3 The pawn captures the queen on d3. Recorded reply: **49.g6+**.

49...Kh8 The king moves from h7 to h8. Recorded reply: **50.gxf7**.

50...Qxf7 The queen captures the pawn on f7.

At the end, nominal material is White 17 / Black 22 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +6. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +6:** the balance goes from -1 to +5. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

The checking line must actually be clear, and moving the blocker must not expose your own king to check.

WHAT THIS POSITION TEACHES

A discovered check opens a line toward the king by moving the blocking piece. Because check must be answered, the moving piece may gain a free tempo for another threat.

HOW TO LOOK

Trace the hidden checking line first. Then examine where the blocker can move to attack or capture something important.

The defending king is on h3. Geometrically undefended: queen on d3. Check for tactical protection.
