Discovered checks

Black to move

Previous move: 19.fxg4. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

19...fxg4+ 20. Nf3 Qc4+ 21. Kf2 Qxc2+

19...fxg4+ Check restricts White to 3 legal replies here. The changed line means the rook on f8 attacks the king on f1. Recorded reply: **20.Nf3**.

20...Qc4+ Check restricts White to 6 legal replies here. From c4 it attacks king on f1 and queen on c2. Recorded reply: **21.Kf2**.

21...Qxc2+ Check restricts White to 5 legal replies here. From c2 it attacks king on f2 and bishop on b1.

At the end, nominal material is White 20 / Black 29 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +10. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +10:** the balance goes from -1 to +9. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

The checking line must actually be clear, and moving the blocker must not expose your own king to check.

WHAT THIS POSITION TEACHES

A discovered check opens a line toward the king by moving the blocking piece. Because check must be answered, the moving piece may gain a free tempo for another threat.

HOW TO LOOK

Trace the hidden checking line first. Then examine where the blocker can move to attack or capture something important.

The defending king is on f1. Geometrically undefended: rook on h1. Check for tactical protection.
