

Discovered checks: White, move 14

Discovered checks

White to move

Previous move: 13...Qe8. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

14. Ng6+ Kg8 15. Rh8+ Kf7 16. Qh5

14.Ng6+ Check restricts Black to 2 legal replies here. From g6 it attacks rook on f8 and bishop on e7. Recorded reply: **14...Kg8**.

15.Rh8+ Check restricts Black to 1 legal reply here. Recorded reply: **15...Kf7**.

16.Qh5 The queen moves from d1 to h5.

At the end, nominal material is White 33 / Black 35 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +0. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +0: the balance goes from -2 to -2. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

The checking line must actually be clear, and moving the blocker must not expose your own king to check.

WHAT THIS POSITION TEACHES

A discovered check opens a line toward the king by moving the blocking piece. Because check must be answered, the moving piece may gain a free tempo for another threat.

HOW TO LOOK

Trace the hidden checking line first. Then examine where the blocker can move to attack or capture something important.

The defending king is on h7. Geometrically undefended: rook on a8. Check for tactical protection.
