

Double checks: White, move 38

Double checks

White to move

Previous move: 37...Kh7. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

38. g8=Q+ Kxg8 39. Rxe8#

38.g8=Q+ Check restricts Black to 2 legal replies here. The pawn becomes a queen. From g8 it attacks king on h7 and rook on e8. Recorded reply: **38...Kxg8**.

39.Rxe8# Mate: rook on e8 gives check; Black has no legal reply.

The line ends in checkmate against the king on g8. Material gain is unnecessary once no legal defense exists.

CHECKPOINT

Which piece delivers the final check, and why can the defender not continue? **Answer:** Rook on e8. The king is in check and the position has zero legal replies.

CARRY THE IDEA INTO YOUR GAMES

Double check is forcing, but not necessarily winning. The king may escape to safety if the follow-up is missing.

WHAT THIS POSITION TEACHES

Double check attacks the king with two pieces at once. The defender must move the king, so an ordinary block or capture of just one checker cannot solve the problem.

HOW TO LOOK

Locate the slider that can be uncovered and a checking destination for its blocker. Then calculate the king's legal escapes.

The defending king is on h7. Geometrically undefended: rook on e8 and queen on d4. Check for tactical protection.
