

Double checks: White, move 24

Double checks

White to move

Previous move: 23...Bxb1. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

24. Qxf7+ Kxf7 25. Rd7#

24.Qxf7+ Check restricts Black to 2 legal replies here. From f7 it attacks king on g8 and rook on e8. Recorded reply: **24...Kxf7**.

25.Rd7# Mate: bishop on a2 and rook on d7 give check; Black has no legal reply.

The line ends in checkmate against the king on f7. Material gain is unnecessary once no legal defense exists.

CHECKPOINT

Which piece delivers the final check, and why can the defender not continue? **Answer:** Bishop on a2 and rook on d7. The king is in check and the position has zero legal replies.

CARRY THE IDEA INTO YOUR GAMES

Double check is forcing, but not necessarily winning. The king may escape to safety if the follow-up is missing.

WHAT THIS POSITION TEACHES

Double check attacks the king with two pieces at once. The defender must move the king, so an ordinary block or capture of just one checker cannot solve the problem.

HOW TO LOOK

Locate the slider that can be uncovered and a checking destination for its blocker. Then calculate the king's legal escapes.

The defending king is on g8. Geometrically undefended: bishop on b1. Check for tactical protection.
