

Double checks

16. Nxg5+ Kg7 17. Rf7+ Kg8 18. Qg6+ Ng7 19. Rxg7+ Bxg7 20. Qf7#

17.Rf7+ Check restricts Black to 1 legal reply here. From f7 it attacks king on g7, knight on d7 and bishop on f8.
Recorded reply: **17...Kg8**.

19.Rxg7+ Check restricts Black to 1 legal reply here. From g7 it attacks king on g8 and knight on d7. Recorded reply: **19...Bxg7**.

20.Qf7# Mate: queen on f7 gives check; Black has no legal reply.

The line ends in checkmate against the king on g8. Material gain is unnecessary once no legal defense exists.

Which piece delivers the final check, and why can the defender not continue? **Answer:** Queen on f7. The king is in check and the position has zero legal replies.

Double check is forcing, but not necessarily winning. The king may escape to safety if the follow-up is missing.

Double check attacks the king with two pieces at once. The defender must move the king, so an ordinary block or capture of just one checker cannot solve the problem.

Locate the slider that can be uncovered and a checking destination for its blocker. Then calculate the king's legal escapes.

The defending king is on f7. Geometrically undefended: rook on h8 and bishop on g4. Check for tactical protection.
