

Deflection tactics: White, move 44

Deflection tactics

White to move

Previous move: 43...Rf7. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

44. h5+ Kxh5 45. Rxf7

44.h5+ Check restricts Black to 5 legal replies here. Recorded reply: **44...Kxh5**.

45.Rxf7 The rook captures the rook on f7.

At the end, nominal material is White 9 / Black 6 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +4. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +4: the balance goes from -1 to +3. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A replacement defender or an intermediate check can keep the target safe even after the original defender moves.

WHAT THIS POSITION TEACHES

Deflection distracts a defender from a critical job. Its new square matters less than the fact that it no longer guards the original target.

HOW TO LOOK

Name the defender's job, find a forcing way to divert it, and calculate the move that exploits the abandoned square.

The defending king is on g6. Look for a defender that can be displaced or overloaded.
