CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** -2: the balance goes from -4 to -6. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Opening a line helps only if your next move is timely. The defender may close the line or create a stronger threat.

WHAT THIS POSITION TEACHES

A clearance move vacates a square or opens a line for another piece. The clearing piece may sacrifice itself to gain the time needed for the follow-up.

HOW TO LOOK

Identify the rook, bishop, queen, or knight that needs access, then locate the friendly piece blocking its route or destination.

The defending king is on g8. Geometrically undefended: rook on e8 and queen on b3. Check for tactical protection.
