

Interference tactics: Black, move 21

Interference tactics

Black to move

Previous move: 21.Ng5. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

21...e3 22. Rxe3 Qxg5

21...e3 The pawn moves from e4 to e3. Recorded reply: **22.Rxe3**.

22...Qxg5 The queen captures the knight on g5.

At the end, nominal material is White 26 / Black 27 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +2. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +2:** the balance goes from -1 to +1. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Capturing the interposing piece may restore defense. Calculate which captures are legal and whether they permit another tactic.

WHAT THIS POSITION TEACHES

Interference interrupts a defensive line between enemy pieces. Occupying one square can make a previously protected target vulnerable or prevent an important recapture.

HOW TO LOOK

Trace the defender's line to its target and inspect forcing moves onto the intervening squares.

The defending king is on g1. Geometrically undefended: queen on d2. Check for tactical protection.
