

Interference tactics: White, move 32

Interference tactics

White to move

Previous move: 31...Nxa3. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

32. Ne6+ Kh8 33. Bxf5

32.Ne6+ Check restricts Black to 3 legal replies here. The changed line means the rook on g1 attacks the king on g7. Recorded reply: **32...Kh8**.

33.Bxf5 The bishop captures the bishop on f5.

At the end, nominal material is White 29 / Black 30 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +3: the balance goes from -4 to -1. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Capturing the interposing piece may restore defense. Calculate which captures are legal and whether they permit another tactic.

WHAT THIS POSITION TEACHES

Interference interrupts a defensive line between enemy pieces. Occupying one square can make a previously protected target vulnerable or prevent an important recapture.

HOW TO LOOK

Trace the defender's line to its target and inspect forcing moves onto the intervening squares.

The defending king is on g7. Geometrically undefended: knight on a3. Check for tactical protection.
