

Interference tactics: Black, move 30

Interference tactics

Black to move

Previous move: 30.Kg1. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

30...Ne4+ 31. Kf1 Rxe8

30...Ne4+ Check restricts White to 5 legal replies here. The changed line means the bishop on a7 attacks the king on g1. Recorded reply: **31.Kf1**.

31...Rxe8 The rook captures the rook on e8.

At the end, nominal material is White 25 / Black 25 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +5. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer:** +5: the balance goes from -5 to +0. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Capturing the interposing piece may restore defense. Calculate which captures are legal and whether they permit another tactic.

WHAT THIS POSITION TEACHES

Interference interrupts a defensive line between enemy pieces. Occupying one square can make a previously protected target vulnerable or prevent an important recapture.

HOW TO LOOK

Trace the defender's line to its target and inspect forcing moves onto the intervening squares.

The defending king is on g1. Geometrically undefended: bishop on b3. Check for tactical protection.
