

Interference tactics: White, move 22

Interference tactics

White to move

Previous move: 21...Nd2. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

22. f4 Qf6 23. Qxd2

22.f4 The pawn moves from f2 to f4. Recorded reply: **22...Qf6**.

23.Qxd2 The queen captures the knight on d2.

At the end, nominal material is White 28 / Black 25 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +3: the balance goes from +0 to +3. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Capturing the interposing piece may restore defense. Calculate which captures are legal and whether they permit another tactic.

WHAT THIS POSITION TEACHES

Interference interrupts a defensive line between enemy pieces. Occupying one square can make a previously protected target vulnerable or prevent an important recapture.

HOW TO LOOK

Trace the defender's line to its target and inspect forcing moves onto the intervening squares.

The defending king is on e8. Geometrically undefended: rook on h8 and rook on c8. Check for tactical protection.
