

Intermediate moves: Black, move 29

Intermediate moves

Black to move

Previous move: 29.Rf3. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

29...Rxc3 30. Rxf6 Rxd3 31. Rxd3 gxf6

29...Rxc3 The rook captures the queen on g3. Recorded reply: **30.Rxf6**.

30...Rxd3 The rook captures the bishop on d3. Recorded reply: **31.Rxd3**.

31...gxf6 The pawn captures the rook on f6.

At the end, nominal material is White 11 / Black 13 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer:** +3: the balance goes from -1 to +2. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

The postponed recapture may disappear. The intermediate move must win enough or preserve the right to recover material.

WHAT THIS POSITION TEACHES

An intermediate move interrupts an expected sequence with a stronger immediate threat. Instead of recapturing automatically, use a check or another forcing move to change the result.

HOW TO LOOK

Before every routine recapture, scan checks, queen attacks, and mating threats. Return to the original capture only if it still helps.

The defending king is on f1. Geometrically undefended: rook on d1. Check for tactical protection.
