

Intermediate moves: White, move 24

Intermediate moves

White to move

Previous move: 23...Qd7. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

24. Bxg6 Qxd6 25. Bxf7+ Kh8 26. exd6

24.Bxg6 The bishop captures the bishop on g6. Recorded reply: **24...Qxd6**.

25.Bxf7+ Check restricts Black to 4 legal replies here. From f7 it attacks king on g8 and rook on e8. Recorded reply: **25...Kh8**.

26.exd6 The pawn captures the queen on d6.

At the end, nominal material is White 19 / Black 17 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +4. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +4: the balance goes from -2 to +2. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

The postponed recapture may disappear. The intermediate move must win enough or preserve the right to recover material.

WHAT THIS POSITION TEACHES

An intermediate move interrupts an expected sequence with a stronger immediate threat. Instead of recapturing automatically, use a check or another forcing move to change the result.

HOW TO LOOK

Before every routine recapture, scan checks, queen attacks, and mating threats. Return to the original capture only if it still helps.

The defending king is on g8. Geometrically undefended: rook on a8. Check for tactical protection.
