

Intermediate moves: White, move 27

Intermediate moves

White to move

Previous move: 26...Bxg5. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

27. Qxe6+ Kf8 28. Rxcg5

27.Qxe6+ Check restricts Black to 2 legal replies here. From e6 it attacks king on g8, rook on c8 and knight on c6. Recorded reply: **27...Kf8**.

28.Rxcg5 The rook captures the bishop on g5.

At the end, nominal material is White 27 / Black 28 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +4. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +4: the balance goes from -5 to -1. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

The postponed recapture may disappear. The intermediate move must win enough or preserve the right to recover material.

WHAT THIS POSITION TEACHES

An intermediate move interrupts an expected sequence with a stronger immediate threat. Instead of recapturing automatically, use a check or another forcing move to change the result.

HOW TO LOOK

Before every routine recapture, scan checks, queen attacks, and mating threats. Return to the original capture only if it still helps.

The defending king is on g8. Geometrically undefended: bishop on g5. Check for tactical protection.
