

Loose-piece tactics: White, move 61

Loose-piece tactics

White to move

Previous move: 60...Be6. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

61. Nxe6 Rxg7 62. Nxf7

61.Nxe6 The knight captures the bishop on e6. Recorded reply: **61...Rxg7**.

62.Nxf7 The knight captures the rook on g7.

At the end, nominal material is White 5 / Black 2 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +3: the balance goes from +0 to +3. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A piece may appear hanging because its defender is indirect: taking it might allow mate, a fork, or a stronger capture.

WHAT THIS POSITION TEACHES

An undefended or tactically undefendable piece can turn an ordinary position into a combination. The first task is to distinguish a truly free capture from a poisoned one.

HOW TO LOOK

List the loose enemy pieces and check whether a forcing move can expose or attack more than one of them.

The defending king is on b7. Absolute pin: rook on d7.
