

Loose-piece tactics: White, move 33

Loose-piece tactics

White to move

Previous move: 32...Nxh2+. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

33. Bxh2 Qh1+ 34. Bg1

33.Bxh2 The bishop captures the knight on h2. Recorded reply: **33...Qh1+**.

34.Bg1 The bishop moves from h2 to g1.

At the end, nominal material is White 21 / Black 19 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +3: the balance goes from -1 to +2. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A piece may appear hanging because its defender is indirect: taking it might allow mate, a fork, or a stronger capture.

WHAT THIS POSITION TEACHES

An undefended or tactically undefendable piece can turn an ordinary position into a combination. The first task is to distinguish a truly free capture from a poisoned one.

HOW TO LOOK

List the loose enemy pieces and check whether a forcing move can expose or attack more than one of them.

The defending king is on h7. Geometrically undefended: rook on f7 and queen on c6. Check for tactical protection.
