

Loose-piece tactics: Black, move 78

Loose-piece tactics

Black to move

Previous move: 78.Rxh4. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

78...Bxh4 79. Kb5 Bd8

78...Bxh4 The bishop captures the rook on h4. Recorded reply: **79.Kb5**.

79...Bd8 The bishop moves from h4 to d8.

At the end, nominal material is White 2 / Black 5 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +5. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer:** +5: the balance goes from -2 to +3. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A piece may appear hanging because its defender is indirect: taking it might allow mate, a fork, or a stronger capture.

WHAT THIS POSITION TEACHES

An undefended or tactically undefendable piece can turn an ordinary position into a combination. The first task is to distinguish a truly free capture from a poisoned one.

HOW TO LOOK

List the loose enemy pieces and check whether a forcing move can expose or attack more than one of them.

The defending king is on c4. Geometrically undefended: rook on h4. Check for tactical protection.
