

Loose-piece tactics: White, move 36

Loose-piece tactics

White to move

Previous move: 35...Nxd7. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

36. Rxd3 Rxe8 37. Rxd7

36.Rxd3 The rook captures the knight on d3. Recorded reply: **36...Rxe8**.

37.Rxd7 The rook captures the knight on d7.

At the end, nominal material is White 16 / Black 14 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +3: the balance goes from -1 to +2. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A piece may appear hanging because its defender is indirect: taking it might allow mate, a fork, or a stronger capture.

WHAT THIS POSITION TEACHES

An undefended or tactically undefendable piece can turn an ordinary position into a combination. The first task is to distinguish a truly free capture from a poisoned one.

HOW TO LOOK

List the loose enemy pieces and check whether a forcing move can expose or attack more than one of them.

The defending king is on g8. Geometrically undefended: knight on d3. Check for tactical protection.
