

Loose-piece tactics: Black, move 28

Loose-piece tactics

Black to move

Previous move: 28.Qxe7. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

28...Rxe7 29. Rc8+ Re8

28...Rxe7 The rook captures the queen on e7. Recorded reply: **29.Rc8+**.

29...Re8 The rook moves from e7 to e8.

At the end, nominal material is White 13 / Black 22 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +9. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +9:** the balance goes from +0 to +9. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A piece may appear hanging because its defender is indirect: taking it might allow mate, a fork, or a stronger capture.

WHAT THIS POSITION TEACHES

An undefended or tactically undefendable piece can turn an ordinary position into a combination. The first task is to distinguish a truly free capture from a poisoned one.

HOW TO LOOK

List the loose enemy pieces and check whether a forcing move can expose or attack more than one of them.

The defending king is on g1. Geometrically undefended: queen on e7 and bishop on h6. Check for tactical protection.
