

Loose-piece tactics: White, move 45

Loose-piece tactics

White to move

Previous move: 44...Rxf6. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

45. Kxf6 c4 46. Re5+

45.Kxf6 The king captures the rook on f6. Recorded reply: **45...c4**.

46.Re5+ Check restricts Black to 5 legal replies here.

At the end, nominal material is White 6 / Black 3 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +5. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +5: the balance goes from -2 to +3. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A piece may appear hanging because its defender is indirect: taking it might allow mate, a fork, or a stronger capture.

WHAT THIS POSITION TEACHES

An undefended or tactically undefendable piece can turn an ordinary position into a combination. The first task is to distinguish a truly free capture from a poisoned one.

HOW TO LOOK

List the loose enemy pieces and check whether a forcing move can expose or attack more than one of them.

The defending king is on e3. Geometrically undefended: rook on f6. Check for tactical protection.
