

Loose-piece tactics: Black, move 25

Loose-piece tactics

Black to move

Previous move: 25.Qf4. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

25...Rxb2 26. Qxf5 Rxb2+

25...Rxb2 The rook captures the bishop on b2. Recorded reply: **26.Qxf5**.

26...Rxb2+ Check restricts White to 2 legal replies here. The move also takes the bishop on g2.

At the end, nominal material is White 23 / Black 26 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +3:** the balance goes from +0 to +3. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A piece may appear hanging because its defender is indirect: taking it might allow mate, a fork, or a stronger capture.

WHAT THIS POSITION TEACHES

An undefended or tactically undefendable piece can turn an ordinary position into a combination. The first task is to distinguish a truly free capture from a poisoned one.

HOW TO LOOK

List the loose enemy pieces and check whether a forcing move can expose or attack more than one of them.

The defending king is on g1. Geometrically undefended: bishop on b2. Check for tactical protection.
