

Exposed-king tactics: White, move 29

Exposed-king tactics

White to move

Previous move: 28...Rxe7. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

29. Qxe7 Rf7 30. Qe8+ Kg7 31. Bxh6+

29.Qxe7 The queen captures the rook on e7. From e7 it attacks rook on f8, knight on e4 and knight on b7. Recorded reply: **29...Rf7**.

30.Qe8+ Check restricts Black to 3 legal replies here. From e8 it attacks king on g8, rook on f7 and knight on e4. Recorded reply: **30...Kg7**.

31.Bxh6+ Check restricts Black to 2 legal replies here. The move also takes the pawn on h6.

At the end, nominal material is White 27 / Black 27 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +6. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +6: the balance goes from -6 to +0. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A king without pawns is not automatically mated. Count active attackers and examine escapes toward friendly pieces.

WHAT THIS POSITION TEACHES

An exposed king gives the attacker checks and access to nearby squares. Coordinate pieces so the checks drive it into a worse net rather than toward safety.

HOW TO LOOK

Inspect open files, diagonals, and unprotected squares around the king. Calculate checks in an order that preserves the attack.

The defending king is on g8. Geometrically undefended: rook on e7 and queen on a7. Check for tactical protection.
