

Exposed-king tactics: Black, move 22

Exposed-king tactics

Black to move

Previous move: 22.Bxh6. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

22...gxh6 23. Qxh6 Qe3+ 24. Qxe3 dxe3

22...gxh6 The pawn captures the bishop on h6. Recorded reply: **23.Qxh6**.

23...Qe3+ Check restricts White to 4 legal replies here. From e3 it attacks king on g1 and queen on h6. Recorded reply: **24.Qxe3**.

24...dxe3 The pawn captures the queen on e3.

At the end, nominal material is White 20 / Black 22 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +2. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer:** +2: the balance goes from +0 to +2. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A king without pawns is not automatically mated. Count active attackers and examine escapes toward friendly pieces.

WHAT THIS POSITION TEACHES

An exposed king gives the attacker checks and access to nearby squares. Coordinate pieces so the checks drive it into a worse net rather than toward safety.

HOW TO LOOK

Inspect open files, diagonals, and unprotected squares around the king. Calculate checks in an order that preserves the attack.

The defending king is on g1. Geometrically undefended: queen on h5. Check for tactical protection.
