

Exposed-king tactics: White, move 43

Exposed-king tactics

White to move

Previous move: 42...Kf7. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

43. Rxh6 Rf6 44. Rh7+ Kg6 45. Ra7

43.Rxh6 The rook captures the pawn on h6. Recorded reply: **43...Rf6**.

44.Rh7+ Check restricts Black to 5 legal replies here. Recorded reply: **44...Kg6**.

45.Ra7 The rook moves from h7 to a7.

At the end, nominal material is White 7 / Black 6 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +1. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +1: the balance goes from +0 to +1. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A king without pawns is not automatically mated. Count active attackers and examine escapes toward friendly pieces.

WHAT THIS POSITION TEACHES

An exposed king gives the attacker checks and access to nearby squares. Coordinate pieces so the checks drive it into a worse net rather than toward safety.

HOW TO LOOK

Inspect open files, diagonals, and unprotected squares around the king. Calculate checks in an order that preserves the attack.

The defending king is on f7. Geometrically undefended: rook on f4. Check for tactical protection.
