

Exposed-king tactics: Black, move 30

Exposed-king tactics

Black to move

Previous move: 30.Kc1. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

30...Rxa3 31. Rxd1 Ra1+ 32. Kb2 Rxd1

30...Rxa3 The rook captures the pawn on a3. Recorded reply: **31.Rxd1**.

31...Ra1+ Check restricts White to 2 legal replies here. Recorded reply: **32.Kb2**.

32...Rxd1 The rook captures the rook on d1.

At the end, nominal material is White 13 / Black 13 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +3:** the balance goes from -3 to +0. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A king without pawns is not automatically mated. Count active attackers and examine escapes toward friendly pieces.

WHAT THIS POSITION TEACHES

An exposed king gives the attacker checks and access to nearby squares. Coordinate pieces so the checks drive it into a worse net rather than toward safety.

HOW TO LOOK

Inspect open files, diagonals, and unprotected squares around the king. Calculate checks in an order that preserves the attack.

The defending king is on c1. Geometrically undefended: rook on d7 and rook on g1. Check for tactical protection.
