

Exposed-king tactics: White, move 51

Exposed-king tactics

White to move

Previous move: 50...Kc7. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

51. Ra6 Rxf1 52. b6+ Kd7 53. Rxa1 Rxa1 54. b7

51.Ra6 The rook moves from f6 to a6. Recorded reply: **51...Rxf1**.

52.b6+ Check restricts Black to 6 legal replies here. Recorded reply: **52...Kd7**.

53.Rxa1 The rook captures the rook on a1. Recorded reply: **53...Rxa1**.

54.b7 The pawn moves from b6 to b7.

At the end, nominal material is White 4 / Black 7 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by -3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** -3: the balance goes from +0 to -3. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A king without pawns is not automatically mated. Count active attackers and examine escapes toward friendly pieces.

WHAT THIS POSITION TEACHES

An exposed king gives the attacker checks and access to nearby squares. Coordinate pieces so the checks drive it into a worse net rather than toward safety.

HOW TO LOOK

Inspect open files, diagonals, and unprotected squares around the king. Calculate checks in an order that preserves the attack.

The defending king is on c7. Look for a defender that can be displaced or overloaded.
