

Exposed-king tactics: Black, move 32

Exposed-king tactics

Black to move

Previous move: 32.Qh2. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

32...Qa7 33. Bxe5 Qa1+ 34. Kc2 b1=Q+

32...Qa7 The queen moves from c7 to a7. Recorded reply: **33.Bxe5**.

33...Qa1+ Check restricts White to 1 legal reply here. Recorded reply: **34.Kc2**.

34...b1=Q+ Check restricts White to 2 legal replies here. The pawn becomes a queen. From b1 it attacks king on c2 and rook on g1.

At the end, nominal material is White 28 / Black 33 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +5. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer:** +5: the balance goes from +0 to +5. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A king without pawns is not automatically mated. Count active attackers and examine escapes toward friendly pieces.

WHAT THIS POSITION TEACHES

An exposed king gives the attacker checks and access to nearby squares. Coordinate pieces so the checks drive it into a worse net rather than toward safety.

HOW TO LOOK

Inspect open files, diagonals, and unprotected squares around the king. Calculate checks in an order that preserves the attack.

The defending king is on b1. Look for a defender that can be displaced or overloaded.
