

Exposed-king tactics: Black, move 30

Exposed-king tactics

Black to move

Previous move: 30.Qxe3. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

30...Nh3+ 31. Kh2 Ng4+ 32. Kxh3 Nxe3

30...Nh3+ Check restricts White to 1 legal reply here. Recorded reply: **31.Kh2**.

31...Ng4+ Check restricts White to 1 legal reply here. From g4 it attacks king on h2, queen on e3 and bishop on e5. Recorded reply: **32.Kxh3**.

32...Nxe3 The knight captures the queen on e3. From e3 it attacks rook on f1 and rook on d1.

At the end, nominal material is White 19 / Black 20 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +6. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer:** +6: the balance goes from -5 to +1. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A king without pawns is not automatically mated. Count active attackers and examine escapes toward friendly pieces.

WHAT THIS POSITION TEACHES

An exposed king gives the attacker checks and access to nearby squares. Coordinate pieces so the checks drive it into a worse net rather than toward safety.

HOW TO LOOK

Inspect open files, diagonals, and unprotected squares around the king. Calculate checks in an order that preserves the attack.

The defending king is on g1. Geometrically undefended: queen on e3. Check for tactical protection.
