

Exposed-king tactics: Black, move 61

Exposed-king tactics

Black to move

Previous move: 61.Kg1. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

61...Rxa7 62. Rxa7 f2+ 63. Kh2 f1=Q

61...Rxa7 The rook captures the pawn on a7. Recorded reply: **62.Rxa7**.

62...f2+ Check restricts White to 3 legal replies here. Recorded reply: **63.Kh2**.

63...f1=Q The pawn moves from f2 to f1. The pawn becomes a queen.

At the end, nominal material is White 7 / Black 10 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +4. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +4:** the balance goes from -1 to +3. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A king without pawns is not automatically mated. Count active attackers and examine escapes toward friendly pieces.

WHAT THIS POSITION TEACHES

An exposed king gives the attacker checks and access to nearby squares. Coordinate pieces so the checks drive it into a worse net rather than toward safety.

HOW TO LOOK

Inspect open files, diagonals, and unprotected squares around the king. Calculate checks in an order that preserves the attack.

The defending king is on g1. Geometrically undefended: rook on f7. Check for tactical protection.
