

Kingside attacks: White, move 29

Kingside attacks

White to move

Previous move: 28...Rh7. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

29. Rf8+ Rxf8 30. Qxf8#

29.Rf8+ Check restricts Black to 1 legal reply here. From f8 it attacks king on h8 and rook on e8. Recorded reply: **29...Rxf8**.

30.Qxf8# Mate: queen on f8 gives check; Black has no legal reply.

The line ends in checkmate against the king on h8. Material gain is unnecessary once no legal defense exists.

CHECKPOINT

Which piece delivers the final check, and why can the defender not continue? **Answer:** Queen on f8. The king is in check and the position has zero legal replies.

CARRY THE IDEA INTO YOUR GAMES

Do not count distant pieces as attackers unless they can reach useful squares in time. Every preparatory move gives the defender a turn.

WHAT THIS POSITION TEACHES

A kingside attack succeeds when pieces and pawn breaks create concrete threats near the king. The attack must arrive before the defender can exchange attackers or counter in the center.

HOW TO LOOK

Count the pieces that can join immediately, identify an entry square, and calculate the defender's checks and exchanges.

The defending king is on h8. Absolute pin: rook on h7.
