

Kingside attacks

WHAT THIS POSITION TEACHES

Count the pieces that can join immediately, identify an entry square, and calculate the defender's checks and exchanges.

The defending king is on g1. Geometrically undefended: queen on e6 and knight on a6. Check for tactical protection.

WORKED CONTINUATION - COVER THIS SECTION FIRST

37...Rxb3 Check restricts White to 1 legal reply here. The move also takes the pawn on g3. Recorded reply: **38.fxb3**.

The line ends in checkmate against the king on g1. Material gain is unnecessary once no legal defense exists.

Which piece delivers the final check, and why can the defender not continue? **Answer:** Bishop on e3. The king is in check and the position has zero legal replies.

Do not count distant pieces as attackers unless they can reach useful squares in time. Every preparatory move gives the defender a turn.
