

Kingside attacks: White, move 25

Kingside attacks

White to move

Previous move: 24...Kg8. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

25. Bxf6 Bxf6 26. Rxe8+ Bxe8 27. Rxc7

25.Bxf6 The bishop captures the knight on f6. From f6 it attacks rook on d4 and bishop on e7. Recorded reply: **25...Bxf6**.

26.Rxe8+ Check restricts Black to 2 legal replies here. The move also takes the rook on e8. Recorded reply: **26...Bxe8**.

27.Rxc7 The rook captures the queen on c7.

At the end, nominal material is White 22 / Black 15 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +9. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +9: the balance goes from -2 to +7. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Do not count distant pieces as attackers unless they can reach useful squares in time. Every preparatory move gives the defender a turn.

WHAT THIS POSITION TEACHES

A kingside attack succeeds when pieces and pawn breaks create concrete threats near the king. The attack must arrive before the defender can exchange attackers or counter in the center.

HOW TO LOOK

Count the pieces that can join immediately, identify an entry square, and calculate the defender's checks and exchanges.

The defending king is on g8. Geometrically undefended: queen on c7 and rook on d4. Check for tactical protection.
