

Queenside attacks: White, move 24

Queenside attacks

White to move

Previous move: 23...Nd4. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

24. Qxc7+ Ka8 25. Qxb7#

24.Qxc7+ Check restricts Black to 1 legal reply here. From c7 it attacks king on b8 and rook on d8. Recorded reply: **24...Ka8**.

25.Qxb7# Mate: queen on b7 gives check; Black has no legal reply.

The line ends in checkmate against the king on a8. Material gain is unnecessary once no legal defense exists.

CHECKPOINT

Which piece delivers the final check, and why can the defender not continue? **Answer:** Queen on b7. The king is in check and the position has zero legal replies.

CARRY THE IDEA INTO YOUR GAMES

The board's left half is not inherently safe. Queen checks and rook entries can make a queenside king as vulnerable as a kingside one.

WHAT THIS POSITION TEACHES

An attack on the queenside can target a castled king, a vulnerable pawn, or trapped pieces. Files and entry squares matter more than simply advancing flank pawns.

HOW TO LOOK

Locate the critical target and which pawn or piece move opens a route toward it. Check whether central counterplay interrupts the plan.

The defending king is on b8. Absolute pin: pawn on c7 and pawn on b7.
