

Calculated sacrifices: Black, move 45

Calculated sacrifices

Black to move

Previous move: 45.Bc5. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

45...Rxc5 46. Kxc5 f2

45...Rxc5 The rook captures the bishop on c5. Recorded reply: **46.Kxc5**.

46...f2 The pawn moves from f3 to f2.

At the end, nominal material is White 6 / Black 4 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by -2. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer:** -2: the balance goes from +0 to -2. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

An attractive attacking picture is not compensation by itself. Continue until the resulting position can be evaluated honestly.

WHAT THIS POSITION TEACHES

A sacrifice exchanges material for a concrete benefit. The benefit may be mate, a stronger attack, a recovered investment, or lasting activity; it must be shown through moves.

HOW TO LOOK

State what the sacrifice changes: a defender, a line, a king square, or a critical tempo. Calculate acceptance and plausible refusal.

The defending king is on b4. Look for a defender that can be displaced or overloaded.
