

Calculated sacrifices: White, move 28

Calculated sacrifices

White to move

Previous move: 27...Rc8. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

28. cxb6 Rxc1 29. b7

28.cxb6 The pawn captures the pawn on b6. The changed line means the rook on c1 attacks the rook on c8. Recorded reply: **28...Rxc1**.

29.b7 The pawn moves from b6 to b7.

At the end, nominal material is White 6 / Black 10 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by -4. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** -4: the balance goes from +0 to -4. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

An attractive attacking picture is not compensation by itself. Continue until the resulting position can be evaluated honestly.

WHAT THIS POSITION TEACHES

A sacrifice exchanges material for a concrete benefit. The benefit may be mate, a stronger attack, a recovered investment, or lasting activity; it must be shown through moves.

HOW TO LOOK

State what the sacrifice changes: a defender, a line, a king square, or a critical tempo. Calculate acceptance and plausible refusal.

The defending king is on f7. Geometrically undefended: rook on c8. Check for tactical protection.
