

Active defensive resources: White, move 32

Active defensive resources

White to move

Previous move: 31...Qxh2+. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

32. Re2 Qxe2+ 33. Kxe2

32.Re2 The rook moves from e3 to e2. Recorded reply: **32...Qxe2+**.

33.Kxe2 The king captures the queen on e2.

At the end, nominal material is White 13 / Black 10 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +4. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +4: the balance goes from -1 to +3. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A defensive puzzle may aim to preserve equality rather than win. Judge success against the threat, not only the final material count.

WHAT THIS POSITION TEACHES

The best defense may create a threat, exchange an attacker, or change the geometry of the attack. Identify the opponent's concrete idea before selecting a response.

HOW TO LOOK

Name the threatened move and the conditions it requires. Look for a move that breaks one of those conditions with tempo.

The defending king is on a8. Geometrically undefended: rook on h8 and queen on h2. Check for tactical protection.
