

Active defensive resources: Black, move 44

Active defensive resources

Black to move

Previous move: 44.Rd6+. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

44...Ke5 45. Rd3 Ke4

44...Ke5 The king moves from f6 to e5. Recorded reply: **45.Rd3**.

45...Ke4 The king moves from e5 to e4.

At the end, nominal material is White 9 / Black 8 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +0. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer:** +0: the balance goes from -1 to -1. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A defensive puzzle may aim to preserve equality rather than win. Judge success against the threat, not only the final material count.

WHAT THIS POSITION TEACHES

The best defense may create a threat, exchange an attacker, or change the geometry of the attack. Identify the opponent's concrete idea before selecting a response.

HOW TO LOOK

Name the threatened move and the conditions it requires. Look for a move that breaks one of those conditions with tempo.

The defending king is on g1. Geometrically undefended: rook on d6. Check for tactical protection.
