

Active defensive resources: Black, move 21

Active defensive resources

Black to move

Previous move: 21.Rxh6. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

21...gxh6 22. Qxh6 Qc7

21...gxh6 The pawn captures the rook on h6. Recorded reply: **22.Qxh6**.

22...Qc7 The queen moves from a5 to c7.

At the end, nominal material is White 23 / Black 26 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +4. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +4:** the balance goes from -1 to +3. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A defensive puzzle may aim to preserve equality rather than win. Judge success against the threat, not only the final material count.

WHAT THIS POSITION TEACHES

The best defense may create a threat, exchange an attacker, or change the geometry of the attack. Identify the opponent's concrete idea before selecting a response.

HOW TO LOOK

Name the threatened move and the conditions it requires. Look for a move that breaks one of those conditions with tempo.

The defending king is on c1. Geometrically undefended: queen on e3. Check for tactical protection.
