

Capture the defender: Black, move 18

Capture the defender

Black to move

Previous move: 18.Nb3. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

18...Qxd1 19. Rxd1 Bxe2

18...Qxd1 The queen captures the queen on d1. From d1 it attacks rook on f1 and knight on e2. Recorded reply: **19.Rxd1**.

19...Bxe2 The bishop captures the knight on e2.

At the end, nominal material is White 19 / Black 20 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +3:** the balance goes from -2 to +1. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Do not assume a defender is unique. Another piece may take over its job, or the opponent may decline to recapture.

WHAT THIS POSITION TEACHES

Removing a key defender can transform a protected square into a winning entry. The defender's function explains why the first capture matters.

HOW TO LOOK

Identify the protected target, capture its essential defender, and calculate the follow-up after each plausible recapture.

The defending king is on g1. Geometrically undefended: rook on a2. Check for tactical protection.
