

Capture the defender: White, move 15

Capture the defender

White to move

Previous move: 14...dxe4. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

15. Qxd7 Nxd7 16. Bxe7

15.Qxd7 The queen captures the queen on d7. Recorded reply: **15...Nxd7**.

16.Bxe7 The bishop captures the bishop on e7.

At the end, nominal material is White 22 / Black 20 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +3: the balance goes from -1 to +2. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Do not assume a defender is unique. Another piece may take over its job, or the opponent may decline to recapture.

WHAT THIS POSITION TEACHES

Removing a key defender can transform a protected square into a winning entry. The defender's function explains why the first capture matters.

HOW TO LOOK

Identify the protected target, capture its essential defender, and calculate the follow-up after each plausible recapture.

The defending king is on g8. Look for a defender that can be displaced or overloaded.
