

Capture the defender: Black, move 8

Capture the defender

Black to move

Previous move: 8.Bg5. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

8...Bxf3 9. Qxf3 Qxg5

8...Bxf3 The bishop captures the knight on f3. Recorded reply: **9.Qxf3**.

9...Qxg5 The queen captures the bishop on g5.

At the end, nominal material is White 32 / Black 35 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +3:** the balance goes from +0 to +3. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Do not assume a defender is unique. Another piece may take over its job, or the opponent may decline to recapture.

WHAT THIS POSITION TEACHES

Removing a key defender can transform a protected square into a winning entry. The defender's function explains why the first capture matters.

HOW TO LOOK

Identify the protected target, capture its essential defender, and calculate the follow-up after each plausible recapture.

The defending king is on e1. Geometrically undefended: rook on h1 and rook on a1. Check for tactical protection.
