

Capture the defender: White, move 19

Capture the defender

White to move

Previous move: 18...Qxe4. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

19. Qxe4 Nxe4 20. Nxe4

19.Qxe4 The queen captures the queen on e4. Recorded reply: **19...Nxe4**.

20.Nxe4 The knight captures the bishop on g4.

At the end, nominal material is White 24 / Black 22 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +3: the balance goes from -1 to +2. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Do not assume a defender is unique. Another piece may take over its job, or the opponent may decline to recapture.

WHAT THIS POSITION TEACHES

Removing a key defender can transform a protected square into a winning entry. The defender's function explains why the first capture matters.

HOW TO LOOK

Identify the protected target, capture its essential defender, and calculate the follow-up after each plausible recapture.

The defending king is on g8. Geometrically undefended: bishop on d6. Check for tactical protection.
