

Capture the defender: Black, move 24

Capture the defender

Black to move

Previous move: 24.Qh3. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

24...Qxh3 25. Nxh3 Nxd3

24...Qxh3 The queen captures the queen on h3. From h3 it attacks rook on f1 and bishop on d3. Recorded reply: **25.Nxh3**.

25...Nxd3 The knight captures the bishop on d3.

At the end, nominal material is White 24 / Black 26 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +3:** the balance goes from -1 to +2. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Do not assume a defender is unique. Another piece may take over its job, or the opponent may decline to recapture.

WHAT THIS POSITION TEACHES

Removing a key defender can transform a protected square into a winning entry. The defender's function explains why the first capture matters.

HOW TO LOOK

Identify the protected target, capture its essential defender, and calculate the follow-up after each plausible recapture.

The defending king is on g1. Geometrically undefended: bishop on d2. Check for tactical protection.
