

Promotion combinations: White, move 44

Promotion combinations

White to move

Previous move: 43...Rxf3. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

44. c7 Re3 45. c8=Q+

44.c7 The pawn moves from c6 to c7. Recorded reply: **44...Re3**.

45.c8=Q+ Check restricts Black to 3 legal replies here. The pawn becomes a queen.

At the end, nominal material is White 10 / Black 8 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +8. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +8: the balance goes from -6 to +2. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Always inspect stalemate and underpromotion resources. A queen is usually strongest, but the exact position determines the choice.

WHAT THIS POSITION TEACHES

An advanced pawn can turn a tactical sequence into a new queen or another useful piece. Promotion may occur with capture or check, and the choice of piece can change the outcome.

HOW TO LOOK

Calculate the pawn's route, the safety of the promotion square, and whether the new piece can survive or give a decisive check.

The defending king is on g8. Geometrically undefended: rook on f3. Check for tactical protection.
