Black to move

Previous move: 46.Rc8. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

46...f1=Q#

46...f1=Q# Mate: queen on f1 gives check; White has no legal reply. The pawn becomes a queen.

The line ends in checkmate against the king on g2. Material gain is unnecessary once no legal defense exists.

CHECKPOINT

Which piece delivers the final check, and why can the defender not continue? **Answer:** Queen on f1. The king is in check and the position has zero legal replies.

CARRY THE IDEA INTO YOUR GAMES

Always inspect stalemate and underpromotion resources. A queen is usually strongest, but the exact position determines the choice.

WHAT THIS POSITION TEACHES

An advanced pawn can turn a tactical sequence into a new queen or another useful piece. Promotion may occur with capture or check, and the choice of piece can change the outcome.

HOW TO LOOK

Calculate the pawn's route, the safety of the promotion square, and whether the new piece can survive or give a decisive check.

The defending king is on g2. Geometrically undefended: bishop on g4. Check for tactical protection.
