

Promotion combinations: White, move 31

Promotion combinations

White to move

Previous move: 30...Rb7. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

31. Qxb7 Qxb7 32. c8=Q

31.Qxb7 The queen captures the rook on b7. Recorded reply: **31...Qxb7**.

32.c8=Q The pawn moves from c7 to c8. The pawn becomes a queen. From c8 it attacks queen on b7 and knight on e8.

At the end, nominal material is White 24 / Black 20 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +4. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +4: the balance goes from +0 to +4. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Always inspect stalemate and underpromotion resources. A queen is usually strongest, but the exact position determines the choice.

WHAT THIS POSITION TEACHES

An advanced pawn can turn a tactical sequence into a new queen or another useful piece. Promotion may occur with capture or check, and the choice of piece can change the outcome.

HOW TO LOOK

Calculate the pawn's route, the safety of the promotion square, and whether the new piece can survive or give a decisive check.

The defending king is on g8. Geometrically undefended: queen on c8 and rook on e7. Check for tactical protection.
