

Promotion combinations: Black, move 60

Promotion combinations

Black to move

Previous move: 60.Ke5. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

60...Bh3 61. c6 h1=Q

60...Bh3 The bishop moves from f5 to h3. Recorded reply: **61.c6**.

61...h1=Q The pawn moves from h2 to h1. The pawn becomes a queen.

At the end, nominal material is White 7 / Black 12 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +8. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +8:** the balance goes from -3 to +5. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Always inspect stalemate and underpromotion resources. A queen is usually strongest, but the exact position determines the choice.

WHAT THIS POSITION TEACHES

An advanced pawn can turn a tactical sequence into a new queen or another useful piece. Promotion may occur with capture or check, and the choice of piece can change the outcome.

HOW TO LOOK

Calculate the pawn's route, the safety of the promotion square, and whether the new piece can survive or give a decisive check.

The defending king is on e5. Geometrically undefended: rook on h8. Check for tactical protection.
